CHANGE OF DESTINATION / RETAIN ON BOARD / RE-EXPORT RATES

- Change of Destination (COD)
- Retain on Board (ROB)
- Re-export rates
- Re-handling and Admin Costs

Dear All,

After careful consideration, we have decided to increase the COD charge from USD 400 to USD 550 per BL, effective 1 April 2026. The application date for COD/DIV must align with the Rate Application Date.

Effective 1 April 2026:

- If no special COD/DIV rate exists, refer to the COD/DIV tariff in OPUS, set at **USD 550 per BL** (with exceptions for China**, Hong Kong and Macao*).
- ****For ex-China shipments, the COD/DIV charge will remain at USD 400 per BL until further notice. This charge is separate and shall not be combined with, or include, the Manifest Amendment Fee and/or BL Amendment Fee.**
- ***Hong Kong & Macao shipments:** A COD fee of HKD 600 per container will apply if the container has gated in but has not yet been loaded onboard. For COD requests after loading, a USD 550 per BL fee will apply. For any inquiries, please contact the local Customer Service or Documentation team.

Applicable Charges:

Charge Code Name	Charge Code	Bound	Currency	Current Charge	New Charge	Per type
Change of Destination	COD	Import/Export	USD	400	550	PER BL

Effective Date:

April 1st, 2026

The quantum does not apply to all trade lanes.

To minimize customer confusion and avoid excessive focus on individual tariff changes, all updates will be consolidated into a single advisory, allowing customers to reference one comprehensive document for this year's changes. The external announcement will be issued by the local office as part of the Annual Tariff Review Customer Advisory, scheduled for 1 March 2026. For countries where there is no surcharge increase effective 1 April 2026, please issue a local Customer Advisory to inform customers of the updated COD quantum, with the advisory also scheduled for release on 1 March 2026.

This adjustment reflects not only inflationary factors but also our efforts to streamline the workflow and reduce manual editing across multiple codes. The updated COD calculation will now include the cost of BL Amendment and Manifest Amendment fees. Please refer to the COD Cost Table guideline, where the changes are highlighted in green, [here](#).

Dear Lemuel and Mary,

Good day,

We have a Retain on board case.

For SELC65857900, a customer M-Trans proceeded from Busan to Nhava Sheva Cargo with our PS3,
but they requested the ROB.

There is no problem to proceed with the ROB, but it seems that we have to apply the additional cost to them.

Can I know the process and Details of the cost?

Then we will send an invoice to them or update the RFA.

Thank you.

Dear **IN OPS Team**,

Please advise if we have the cost below.

Appreciate your end to add the correct parties.

//quote//

Will incur 20 **restow** units and 1 hatch cover move to COD unit for INJHT.

//unquote//

Dear **Yeonsim**,

Restow cost should be USD 200/movement. 2 movements = 1 **restow** (USD 400/1 **restow**)

Once number **restow** is provided, it should be calculated based on the given example above.

Therefore, there will be 40 movements = 20 **restow**.
