• CM: USD 274/294 per 20’RF/40’RQ

How to Price?

- Should be offered lower than dry rates. Usually 80%-85% of normal dry rates.

Why do we offer RAD?

- The purpose of offering RAD/NOR is to entice shipper to use reefer equipment instead of dry by giving them rate incentive and at the same time help ONE to give support to those areas which are deficit of reefer containers.

Sample Approach:

1. Surplus Outbound : Offer RAD rates competitively to evacuate containers
2. Deficit Inbound : Offer competitively to support export requirement from these areas.
3. If EP matchback is unfavorable: we still try to offer lower rates than DRY but not too competitive.

- Reefer as DRY Computation
 - e.g: JKT/SIN (JID): USD 350/400 per 20’RF/40’RQ, incl of THL, subj to THD/CMC/DOC/DOF/OBS/SLF/charges both ends

ASIA DG as.dg@one-line.com
group address
for DG

REEFER as DG

- We tactfully decline quoting DG in reefers via transshipment both for EA and WA.
- Reason behind not quoting would be in view of the risks involved due to different criteria from the 1st and 2nd vessel...this may incur high void slot cost and long waiting time at transshipment port which may also incur additional charges.

****MAKE SURE TO CHECK TO ASIA DG FIRST CARGO ACCEPTANCE BEFORE QUOTING****

• DG DRY

SPECIAL CONTAINER (IG/OOG)

☑ Global Special Cargo Management - Void Calculation O2OH & F2OH -

For 20ft Over Height cargo, the Void for Under-Deck stowage will be 2 TEU.

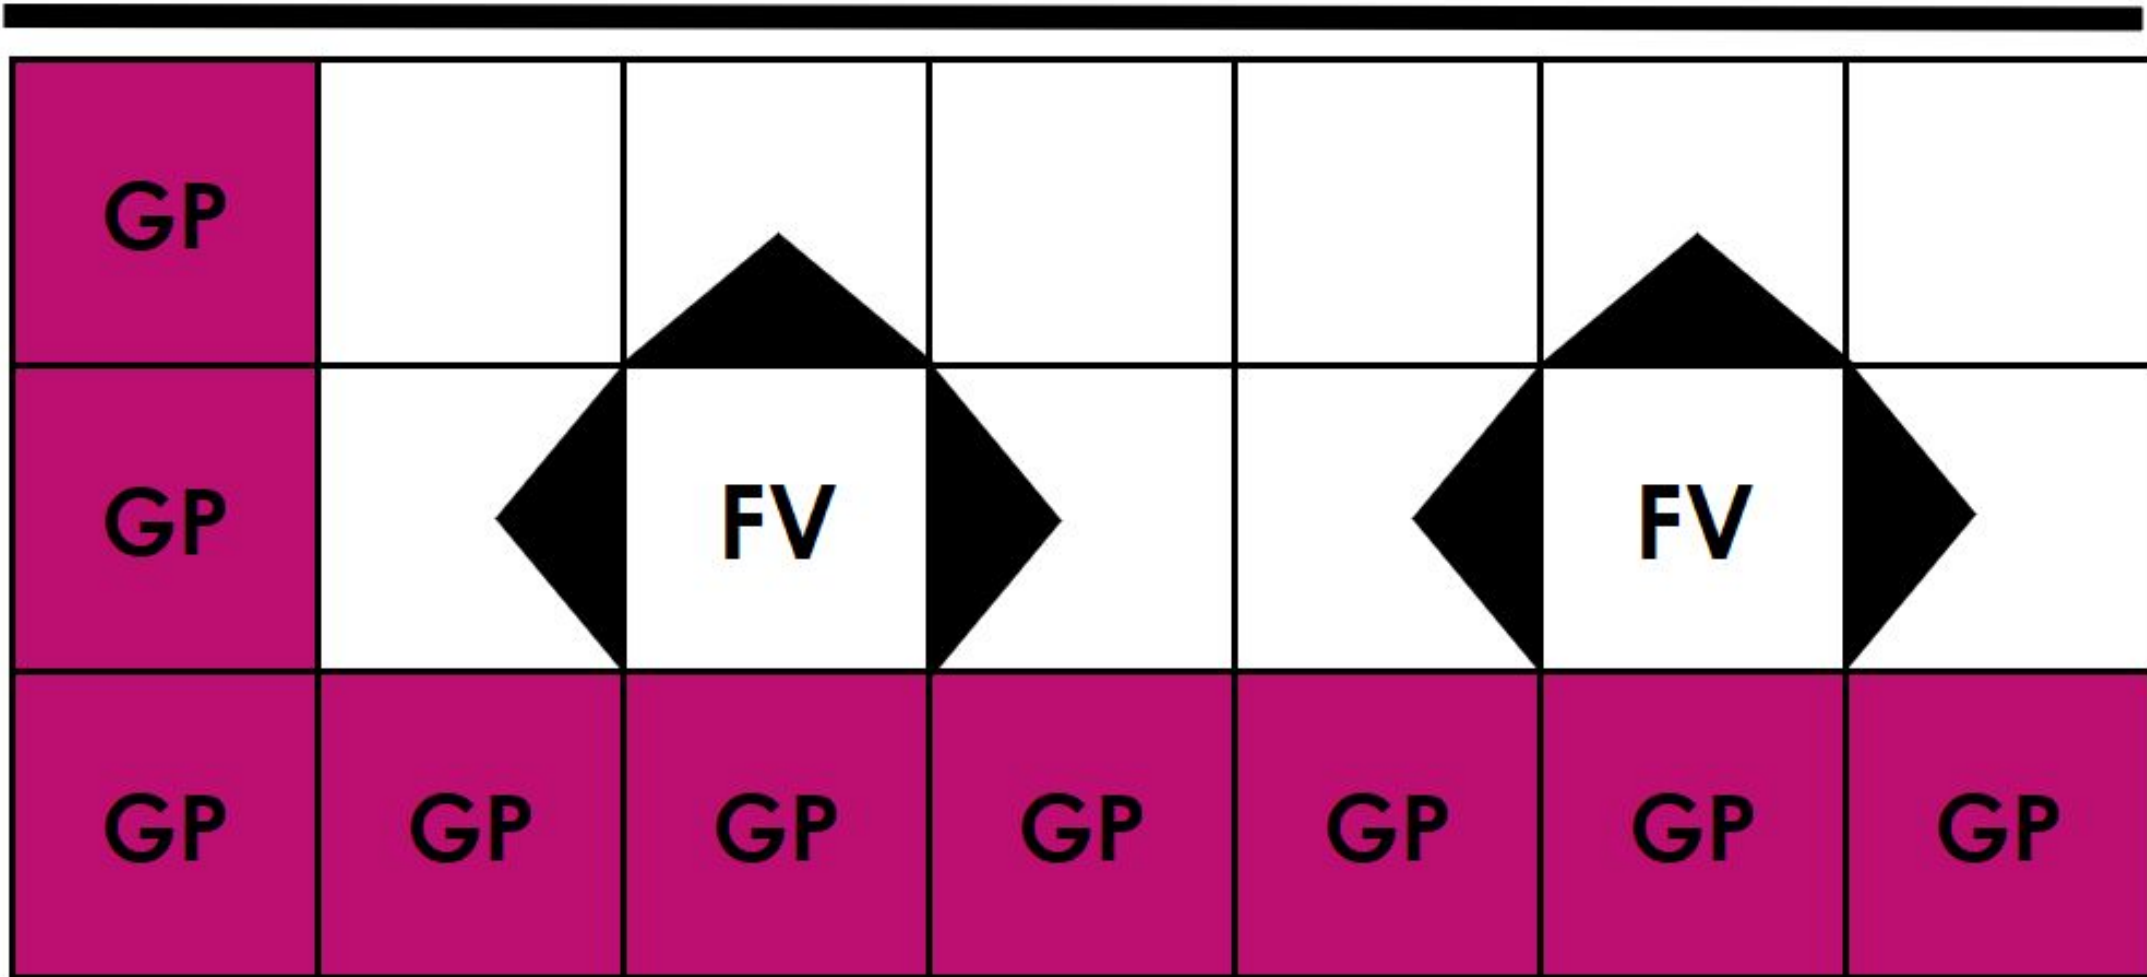

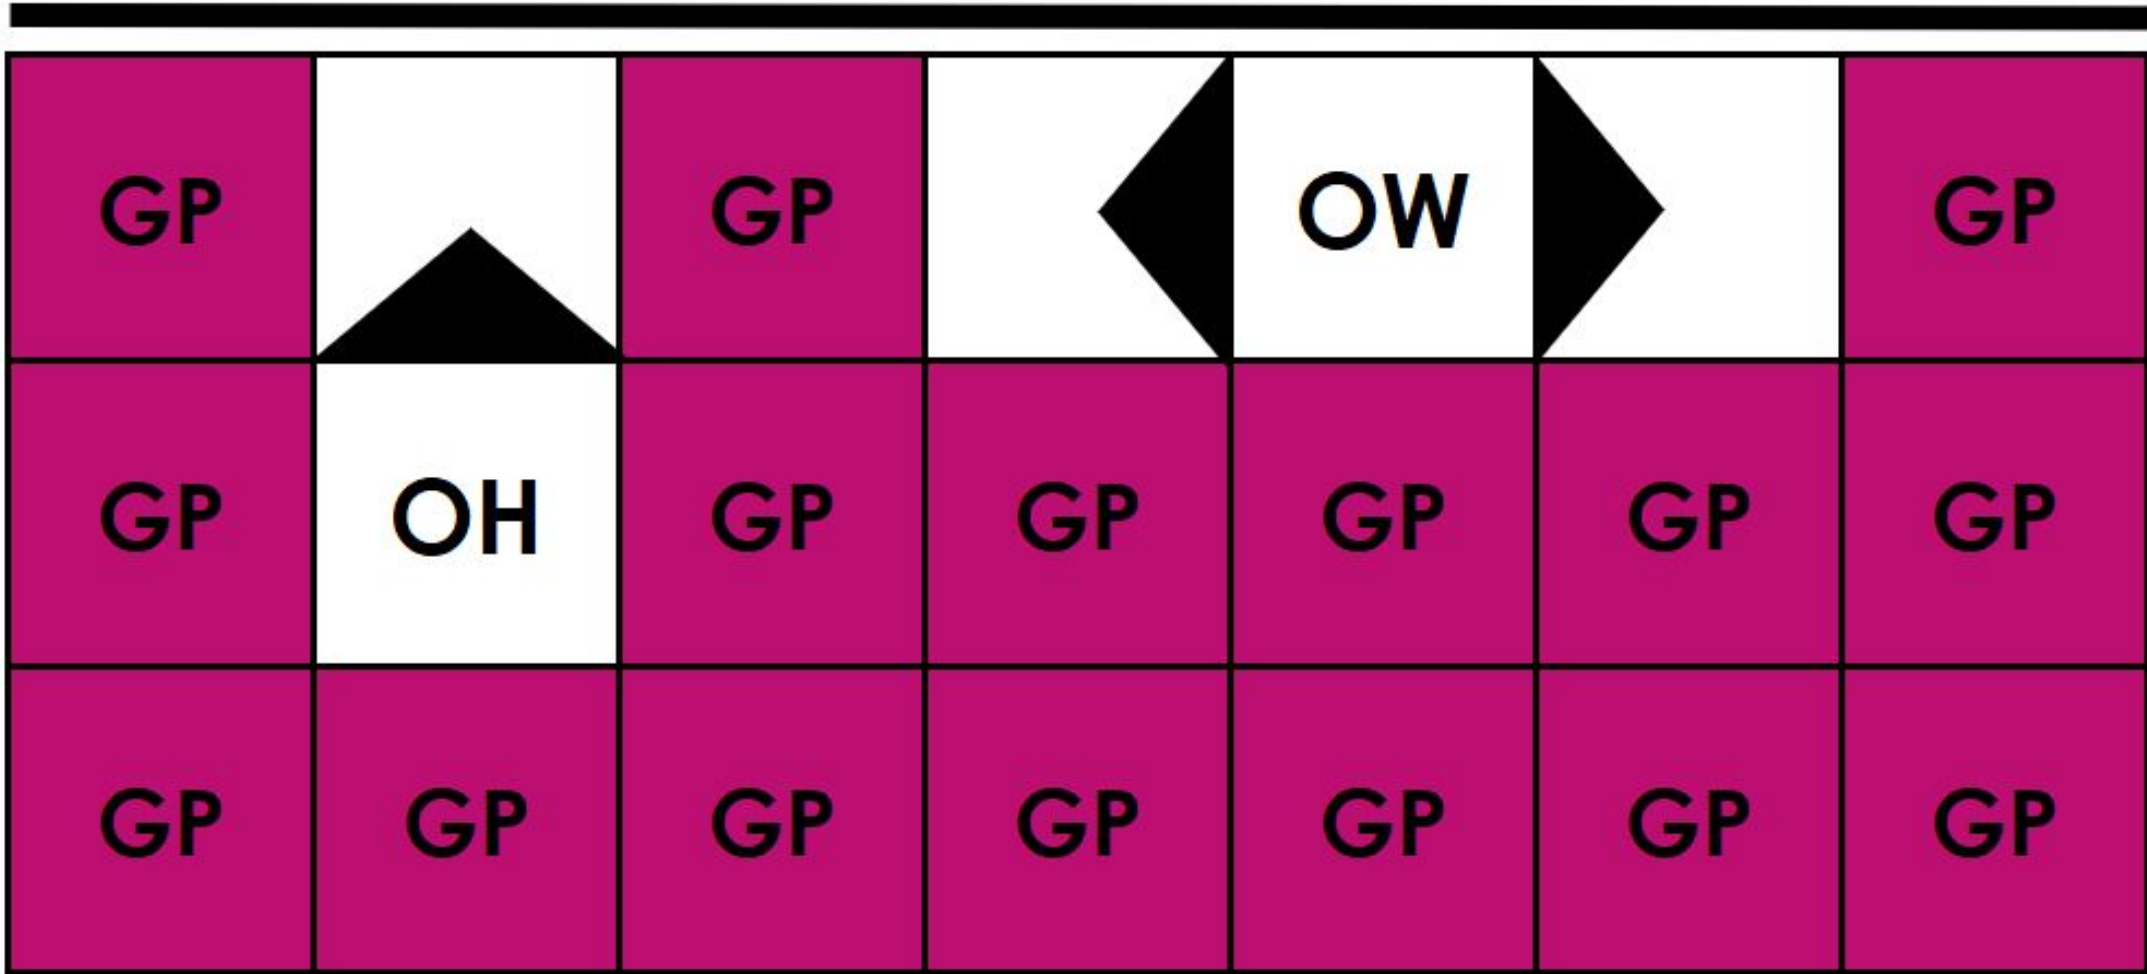

☑Global Special Cargo Management - Void Calculation F2OW -

For 20ft Over Width cargo, the Void for Under-Deck stowage will be 8 TEU. Its because as per Cargo stowage and securing practice 40ft container should be put on top of 20ft container.

☑Global Special Cargo Management

- Type of OOG -

OH: Over Height
OW: Over Width
FV: Full Void (OW & OH)

☑Global Special Cargo Management

- OOG Void Calculation -

F4	OH	2	2	4
	OW	2	4	6
	FV	2	10	12

For 20ft Over Width cargo, rate offer will not be competitive. Best way is to offer the rate with 40ft Flat Rack or if customer will ship 2 units 20ft Over Width cargo at the same time.

- OOG Computation
- Complete cargo dimension should be provided (Length, Width, Height and Tons). **LxWxH@Tons**
- INGAUGE VS OUTGAUGE
- IG

INDUCEMENT FOR INBOUND NEPAL

**Please note that IB Nepal is currently under inducement.
Hence, please canvass for possible accounts/prospects.

INDIA INBOUND ICD TOP UP:

- Please see below updated ICD Add on with immediate effect.

Updated Add-On Policy for India ICD

- Remove US\$250/unit add-on for these (17) locations with immediate effect

Ahmedabad	Mandideep	Tughlakabad
Hyderabad	Sahnewal	Baroda (16/Dec/2022)
Jaipur	Sanand	
Ludhiana	Ankleshwar	
Jodhpur	Patli	
Moradabad	Tumb	
Nagpur	Tihi	
Garhi Harasu	Dadri	

- Remove US\$250/unit add-on for these (18) locations with immediate effect

- ICD requiring D5 (s) mainly

INAMD/INCML/INDRI/INJDH/INLUH/INMOR/INPAL/INSON/INTKD/INHYP

- To ICDs destinations other than mentioned above , to add US\$250/unit over to Pipavav or N Sheva base rates + ARD(Arbitrary Destination) as per ONE's published tariff and Applicable surcharges.
- For ICDs that have routing via Pipavav as a gateway port, please avoid using Nhava Sheva due to restrictions on move count.

ICD PRICING (SUBJECT TO CHANGE):
