• CM: USD 464/525 per 20’RF/40’RQ

How to Price?

- Should be offered lower than dry rates. Usually 80%-85% of normal dry rates.

Why do we offer RAD?

- The purpose of offering RAD/NOR is to entice shipper to use reefer equipment instead of dry by giving them rate incentive and at the same time help ONE to give support to those areas which are deficit of reefer containers.

Sample Approach:

1. Surplus Outbound : Offer RAD rates competitively to evacuate containers
2. Deficit Inbound : Offer competitively to support export requirement from these areas.
3. If EP matchback is unfavorable: we still try to offer lower rates than DRY but not too competitive.

- Reefer as DRY Computation
 - e.g: JKT/SIN (JID): USD 700/650 per 20’RF/40’RQ, incl of THL,EFS,MBS subj to THD/CMC/DOC/DOF/OBS/SLF/charges both ends
- CHILLED/FROZEN

- **CM: USD 104/20DG per 20’DG**

REEFER as DG

- We tactfully decline quoting DG in reefers via transshipment both for EA and WA.
- Reason behind not quoting would be in view of the risks involved due to different criteria from the 1st and 2nd vessel...this may incur high void slot cost and long waiting time at transshipment port which may also incur additional charges.

****MAKE SURE TO CHECK TO ASIA DG FIRST CARGO ACCEPTANCE BEFORE QUOTING****

• **DG DRY**

SPECIAL CONTAINER (IG/OOG)

☑ Global Special Cargo Management - Void Calculation O20H & F20H -

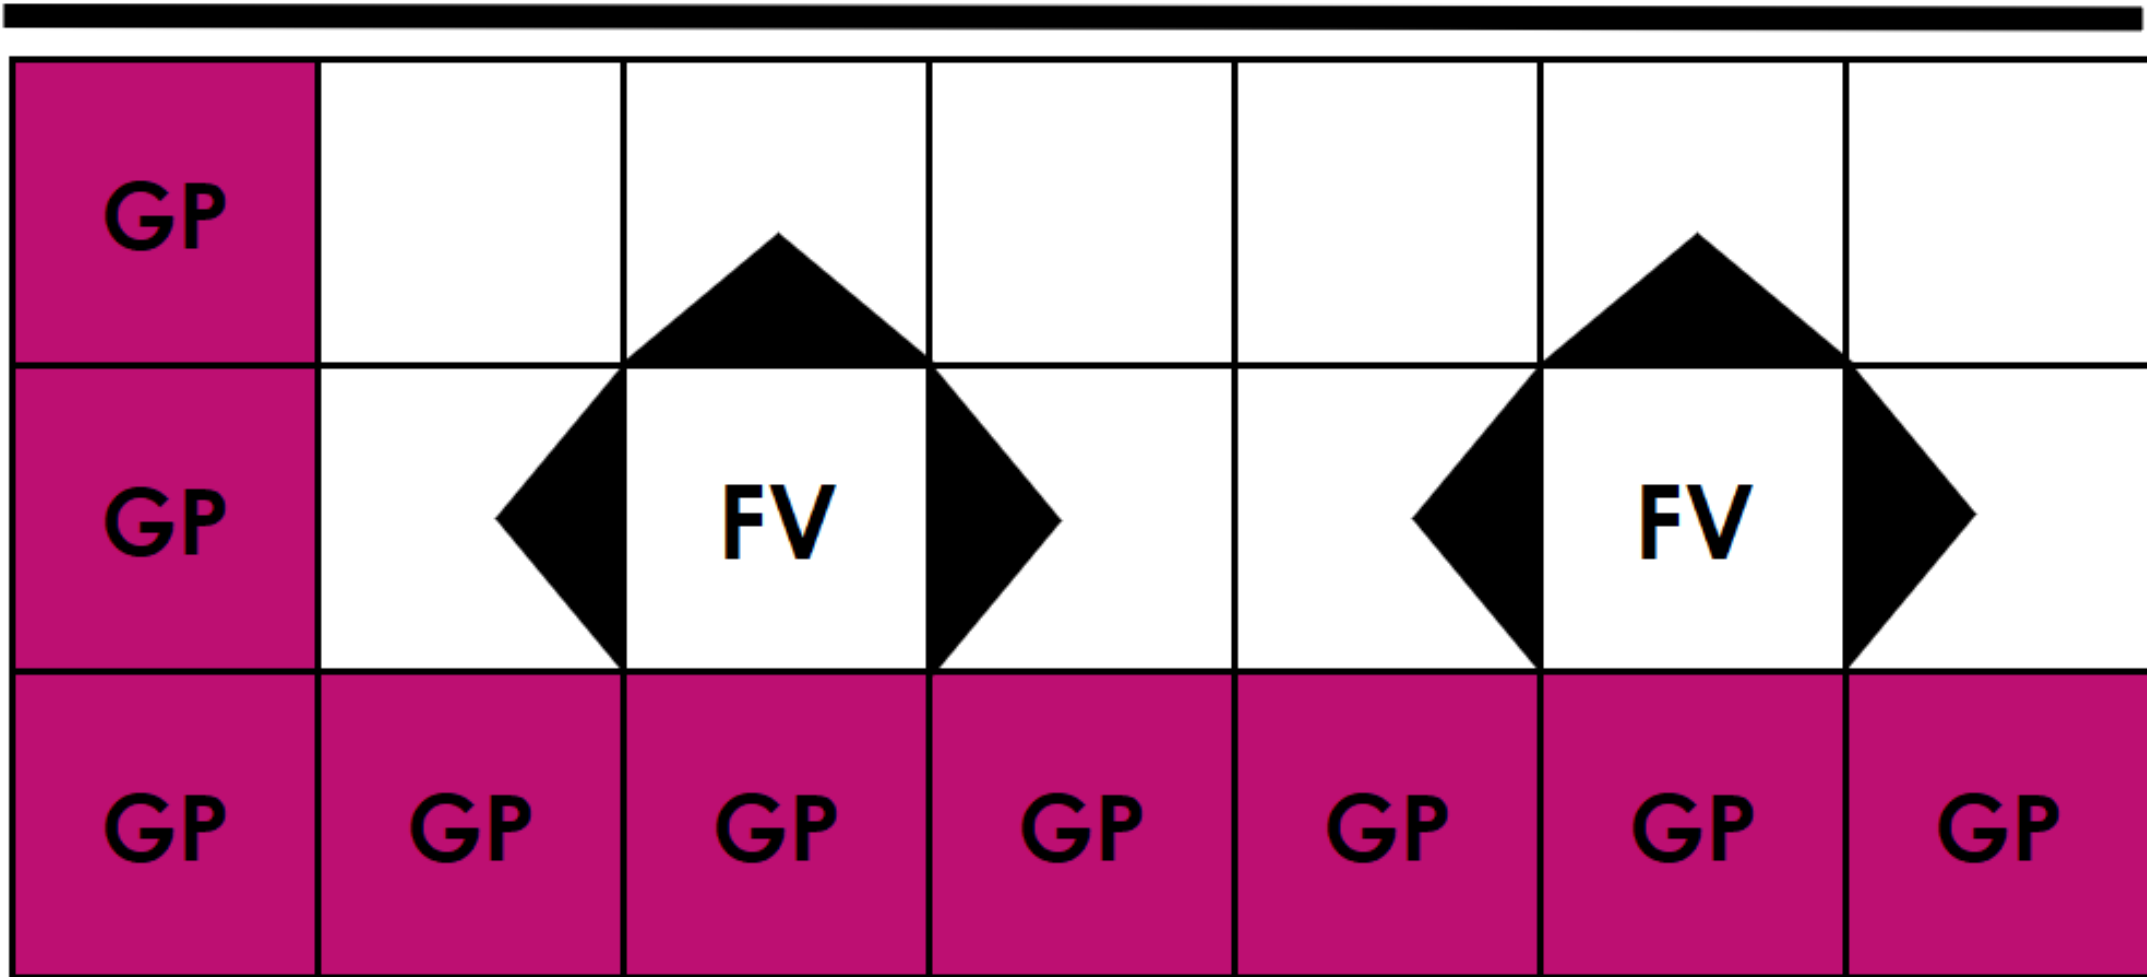

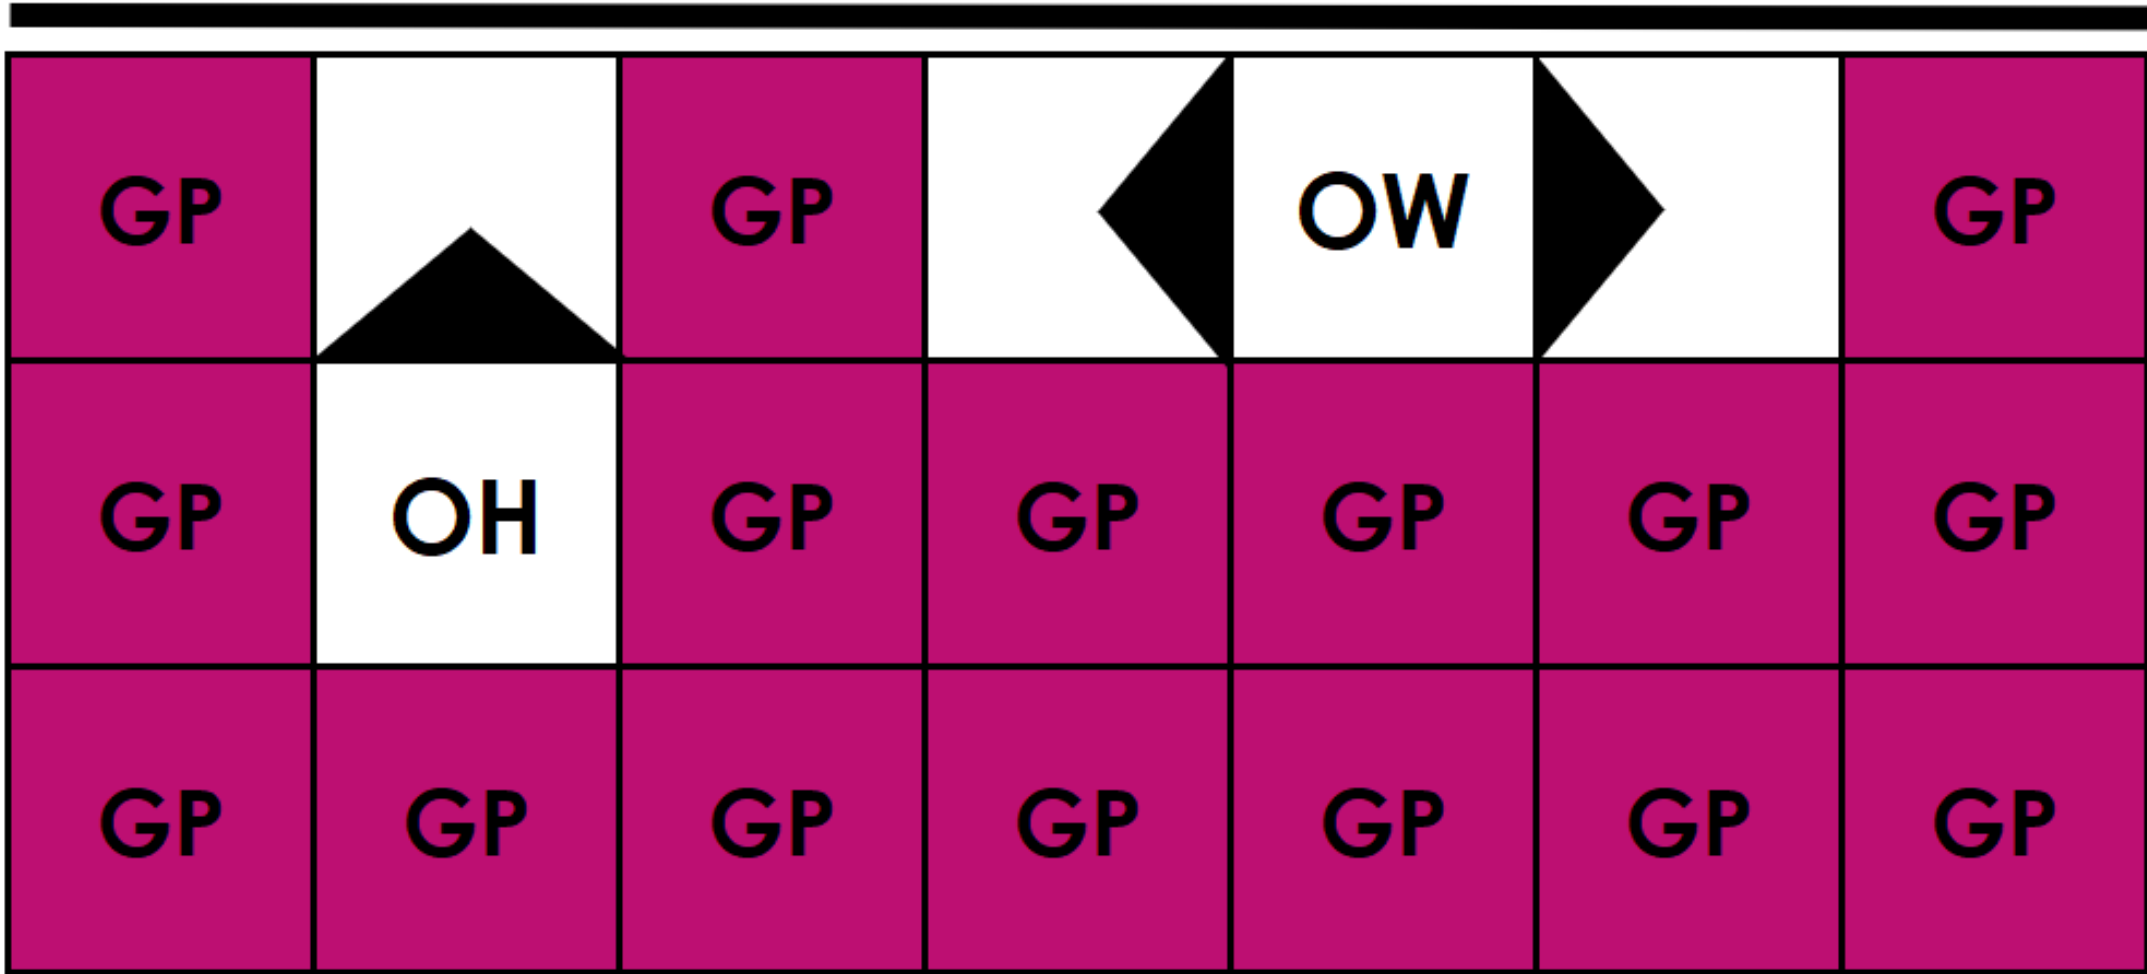

For 20ft Over Height cargo, the Void for Under-Deck stowage will be 2 TEU.

☑ Global Special Cargo Management - Void Calculation F20W -

For 20ft Over Width cargo, the Void for Under-Deck stowage will be 8 TEU. Its because as per Cargo stowage and securing practice 40ft container should be put on top of 20ft container.

☑Global Special Cargo Management
- Type of OOG -

OH: Over Height
OW: Over Width
FV: Full Void (OW & OH)

☑Global Special Cargo Management

- OOG Void Calculation -

Unit	OOG Type	Unit TEU	Void TEU	Total TEU

	OW	2	4	6
	FV	2	10	12

For 20ft Over Width cargo, rate offer will not be competitive. Best way is to offer the rate with 40ft Flat Rack or if customer will ship 2 units 20ft Over Width cargo at the same time.

- OOG Computation
 - Complete cargo dimension should be provided (Length, Width, Height and Tons). **LxWxH@Tons**
- INGAUGE VS OUTGAUGE
 - IG
